

## New Product Briefing OKIFAX 160

Introducing the NEW OKIFAX 160 - a compact and stylish fax machine for the individual or small office. Designed for business the OKIFAX 160 is a professional quality, easy to use fax machine with a comprehensive feature set.

The OKIFAX 160 can be quickly installed providing fax, telephone and convenience photocopying. An integrated telephone handset saves the expense of separate phone lines for fax and voice calls and a built-in interface accommodates the connection of an external answering machine. Keeping productivity levels high, on-hook dialing and repeat dialing (up to the last 10 numbers) allows users to get on with their other work when trying to get through to busy numbers.

A 20 page automatic document feeder (ADF) makes sending multi-page documents easy. Documents can be quickly scanned and stored in memory for fast real time transmission. With its high speed Super G3 modem the OKIFAX 160 will transmit these documents at just 3 seconds per page, keeping phone costs to a minimum.

Easy to use and program the OKIFAX 160 has a comprehensive operator panel including an Alpha keyboard for easy and efficient searching of its 199 speed dial numbers. 10 group dials of up to 199 numbers in each are available enhancing communications with multiple users even further. A 400 page flash memory makes sure faxes are still received if paper or toner runs out at night or during the weekend. Faxes stored in the OKIFAX 160 are not lost even if there is a power cut and automatically printed as soon as the paper or toner is refilled.

The OKIFAX 160 has a high performance 16 pages per minute (ppm) mono laser print engine enabling it to reproduce the documents it receives in 600 x 600dpi print quality. Detailed documents combining diagrams with text are printed on plain paper with depth and clarity. The OKIFAX 160 has a high 250 sheet paper capacity and a 2,400 page print cartridge keeping user interventions to a minimum. When required the top loading print cartridge is simple and quick to replace. The high quality scanner and print engine of the OKIFAX 160 also offers a very convenient walkup mono copier.

Every aspect of the OKIFAX160 is designed for business with its high quality fax features, robust construction and outstanding reliability, keeping efficiently levels high while operating costs remain low. The OKIFAX 160 the essential communication tool for any small office.
