

A3 – IT MAKES A BIG DIFFERENCE...

...TO PRINTING

Work or personal: all your printing will make a bigger impact – whether it's a presentation, a blueprint, a spreadsheet or a photo for framing.

...TO COPYING

You've got an A3 original – you get an A3 copy: no messing around sticking two A4 sheets together or reducing down to A4 so all the impact is lost. Plus enlarge text and graphics up to A3 for easier reading and proofing.

...TO SCANNING AND FAXING

Not all documents are A4 – our high resolution scanner gives you the flexibility to scan multiple documents up to A3. Need to fax to A3? You can do this as well.

...WHETHER IT'S IN THE OFFICE OR AT HOME

All of the Brother compact A3 inkjet all-in-ones give you not only the impact of A3 – and the option of A4 – but also fast, flexible, reliable and affordable multi-function performance.

In a work station, in the office, or on your desk in the spare room – you certainly haven't got the biggest, but you've definitely got the best compact A3 inkjet all-in-one you can buy.

BECAUSE NOW IT'S FASTER AND MORE AFFORDABLE TO RUN

When it was launched in 2008, our range of compact A3 inkjet all-in-ones was a world-first: so much functionality in such a small space.

It received rave reviews and found its way into offices and homes the world over.

But we're always looking to improve – and we have.

They still offer affordable printing, scanning, copying and faxing in gloriously rich colour, fantastic resolution and with all the impact of A3. Only now they have an even faster print speed, so you can appreciate the quality that much quicker. Our XL cartridges will also help you reduce running costs.

The latest wireless 'N' technology means you can share the speed and all the other benefits of your Brother compact A3 inkjet all-in-one with the rest of the team in your office, or the family at home. It's an ideal, flexible solution wherever you are and whatever printing requirements you have.

PERFECT
