

imagine a smart inkjet fax that's
loaded with unique features

The SF-360 series brings modern-day convenience right to your desk with functions that only Samsung innovation provides. This smart fax saves time with the "My Favorites" feature that allows you to store frequently used documents and send them anytime you need to without the originals. And the "skew free" document feeder keeps the paper straight every time, saving you time and frustration.

Samsung Inkjet Fax SF-360 / SF-361P / SF-365TP

imagine an inkjet fax equipped with advanced and convenient functions that only Samsung technology can provide

Presenting a smart inkjet fax that is equipped with all the innovative Samsung features that you've been waiting for. The SF-360 series can keep pace with your busy schedule and actually save you time throughout the day. Features like My Favorites allow you to save frequently used documents in your fax, so you can send a fax without the original document. You won't believe how much time and frustration the "skew free" document feeder will save you, giving you perfectly straight output every time.

imagine a smart fax that actually saves you effort

Fax even without an original

My Favorites feature stores documents so you can fax directly

Use My Favorites feature, only provided with Samsung fax machines, to store documents that you use frequently. Save up to 20 pages of documents in memory with an ID name, and then just press the My Favorites button when you want to send a fax directly without needing the original paper document. Life can be so simple with My Favorites.

My Favorites

Perfect hassle-free faxing every time

The paper is guaranteed to stay straight every time

Now you don't have to worry about paper twisting. Samsung's skew free document feeder keeps the paper perfectly straight so it will feed in straight and print out neat every time.

Document Skew Free Feeder

Stay connected with SMS

Send, receive and print short messages

The SMS feature lets you communicate quickly and easily with the touch of a few buttons! Short messages (SMS) can be received from mobile phones and computers. Received SMS messages can be read or printed and up to 30 messages can even be saved. Get connected.

Short Message Send/Receive/Print

Protect yourself from unnecessary fax calls

Identify the fax number and block unwanted junk faxes

The Samsung SF-360 series features Caller ID and Junk mail functions to guarantee that your privacy is respected. The Caller ID function displays the name or number of the caller, leaving you the option of responding or letting the call go to your answering machine. The Junk Fax function scans your incoming faxes for unwanted solicitations and adverts. Eliminate unnecessary faxes and save time and paper.

imagine powerful features that make faxing easy

Advanced features in a personal fax machine

Time saving features and advanced technology let you get more work done

1.25/2 MB memory

The Samsung SF-360/361P offers a very generous 1.25 MB onboard memory which can hold 100 fax pages. Only SF-365TP model has 2 MB memory with a capacity of 150 pages. No more missed faxes or missing the last few pages because of memory. Now, that's a smart personal fax machine!

100 ea Speed Dial

The SF-360 series comes equipped with a Speed Dial feature that lets you store up to 100 numbers for instant dialing. Now you won't spend time looking up fax numbers or copying them from the fax cover sheet. Just store them in Speed Dial and one button starts the fax.

30 min. Answering Machine

The SF-365TP features a 30 minute answering machine so that you won't miss any phone call. This feature-rich fax machine features the best of phones and answering machines all wrapped up in a small, personal fax machine.
